Pulsating **E**lectro-**M**agnetic **F**ield Therapy works in the cells and supports the functioning of inner regulation mechanisms while enhancing the self-healing capacity. The action of **PEMF** may be summarised in FIVE main effects

MAIN BENEFITS.

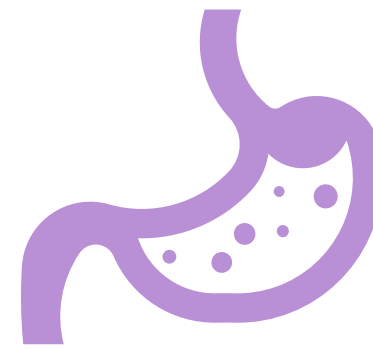

1. ANTI AGEING

PEMF is a powerful bio hacking tool that allows rejuvenation and repair of every cell in the body. Resulting in bringing down your biological age and adding longevity to your life. Whilst strengthening your immunity.

2. DESTRESS

PEMF releases frequencies that will guide your brain into the state of delta waves resulting in cell repair and leaving you feeling rejuvenated. Perfect for people who are over thinkers, suffer from anxiety, and have sleeping difficulties.

3. DIGESTION & DETOXIFICATION

PEMF increases oxygen absorption in the body, assisting in toxin elimination and bringing the body to an alkaline state. Resulting in improved digestion and optimised organ function.

4. JOINT, BONES & INFLAMMATION

PEMF is healing on joints and bones. Perfect for post workout, muscle recovery, and chronic inflammation. It can help in reducing or even reversing arthritis and osteoporosis.

5. COUNTERING HARMFUL EMFS, WIFI ROUTERS AND 5G.

These frequencies affect our sleep patterns and our cells' power generating capacity, PEMF therapy blocks these harmful EMFS, making them relatively harmless.
